DF-1 & DF-1-YLW (Standard Design) Product Specifications

Defender Foot provides indestructible protection for rack columns. This ductile iron casting column protector eliminates damage even when subjected to repeated impact abuse by reach truck straddles.

Prevention of even one damage episode can result in repair cost, damage, and headaches that dwarf the investment required for Defender Foot protection

- Anchored to concrete flooring by (3) 5/8" anchor bolts. Anchor bolts are protected by recessed pockets.
- Beveled impact surfaces minimize fork truck impact for operator safety.
- Affords protection from side impacts as well as front impacts.
- Available unfinished or with a "focal yellow" finish of durable powder paint.
- Defender Foot affords complete protection without bolts or welding. Removal, relocation, re-use and rack configuration are easy.
